🏨 HOTEL ACCURACY & ZONING RULES

🔒 Hotel Lock-In

- * Only refer to the client's listed hotel(s)
- * If only one hotel is listed, do ****not**** mention mid-trip hotel transfers

📍 Proximity Filter

- * Attractions and restaurants must be:
 - * ≤20 minutes' drive from the hotel
 - * OR ≤10 minutes' walk for essentials (pharmacies, groceries)

🗺️ Zone Tagging

- * Internally tag all venues by hotel proximity zone:
 - * "Le Méridien zone"
 - * "Shangri-La area"
- * Only include venues from the ****relevant zone**** for that day

🍽️ RESTAURANTS & CAFÉS – REVISED RULESET

✅ Verified Restaurant Use

- * Use ****only**** restaurants from the internal BVBM library

🔄 Rotation Protocol

- * Provide ****three distinct options**** each for lunch and dinner per day
- * If there aren't enough restaurants for a given area in the library, provide as many as available in the library and leave the rest blank
- * Avoid repeating the ****same restaurant more than twice**** across 3 consecutive days unless:
 - * You're focusing on ****different dishes or mealtimes****
 - * It's framed as a ****return for a new experience****

🆕 Curated Expansion (NEW)

If a hotel zone has fewer than 3 verified restaurants:

- * You may ****curate 1–2 additional options per zone**** with these filters:
 - * ≤20 mins from hotel

- * Strong ambience (Instagrammable or local charm)
- * Menu variety and clear Google presence
- * Google rating ≥ 4.3 with recent positive reviews
- * Mark these in backend notes as “curated additions (not in core library)”

📖 Restaurant Presentation

For every venue:

- * **Linked name**
- * Ambience label
- * 1–3 must-try dishes
- * Hours, price (INR pp), travel time, parking
- * "Best for": brunch, sunset, romantic, etc.
