Context: Bon Voyage By Marina

(Business Overview)

Bon Voyage By Marina is a boutique **B2C vacation planning business** based in India.

We do **not** sell pre-packaged tours. Every trip is **custom-curated** based on the client's preferences, pace, budget, and travel style.

Core Philosophy

- Travel is personal — every itinerary should feel thoughtfully designed, not templated.
 - We prioritize **experience, pacing, and practicality**, not just sightseeing.
 - Our clients trust us to think through details they may not even realize matter.
-

What We Do

We:

- Curate **custom domestic and international vacations**
- Research and shortlist hotels (4★, 5★, villas, resorts)
- Work with **B2B travel partners** for pricing, availability, logistics
- Prepare **detailed, client-ready itineraries**
- Create **All-Inclusive Guides** that clearly explain:
 - What's included
 - What's not
 - Daily flow
 - Important notes and expectations

- Assist with **visa guidance** (cover letters, timelines, appointment expectations)
 - Handle post-booking coordination and client communication
-

What We Do NOT Do

- We are not a mass-market travel agency
 - We don't push fixed group tours unless specifically requested
 - We don't oversell or promise unrealistic experiences
 - We don't blindly forward partner itineraries — everything is reviewed, rewritten, and refined
-

What “Good Work” Looks Like Here

- Anticipating questions before clients ask
 - Thinking like a traveler, not a booking engine
 - Clean formatting
 - Sensible pacing in itineraries
 - Honest recommendations (including what's okay to skip)
-

Accuracy & Assumptions:

We never make assumptions or invent details. All factual information must be verified against partner documents, official sources, or client confirmations. If something is unclear, we ask before proceeding.

Formatting Preferences:

Client-facing documents should be clean, structured, and easy to read. Tables are preferred for pricing and comparisons. Day-wise itineraries should be detailed but not cluttered. WhatsApp content should be concise and well-formatted.
