Recommended things to buy/carry for your trip

- Travel Insurance
 - You should buy travel insurance which provides \$100,000 coverage for each member of the family.
 - [Tata AIG](#) has a good plan for Rs. 8370 which covers the four of you
 - There is a \$100 deductible though which means you will have to pay at least \$100 from your pocket if you visit a doctor or urgent care or emergency room.
 - It does not cover acute onset of any pre-existing conditions unless the condition becomes life-threatening
 - It does provide some coverage for lost baggage/missed flights but the amount covered seems very minimal and looks like they have added this benefit only for posterity sake.
 - If you go to a doctor/hospital, you will need to pay the provider and then you can file for reimbursement.
 - [visitorscoverage.com](#) has a Patriot America Plus plan with zero deductible at \$200 which covers acute onset of pre-existing conditions as well.
 - It has excellent network coverage, they pay 100% of expenses when you visit an in-network doctor or hospital otherwise they pay 80%.
 - No travel coverage though but the travel coverage that TataAIG provides isn't very good.
 - I would highly recommend getting this plan which is a bit more expensive but has a Zero deductible so you pay nothing out of pocket in case you need to go see a doctor or go to an emergency room.
 - There is also a chance that you won't need to pay anything upfront with this plan, although you will still need to file a claim later.
- Weather
 - NYC - max temp: 24°C, min: 11°C
 - DC- NYC - max temp: 28°C, min: 20°C
 - Buffalo- NYC - max temp: 20°C, min: 9°C
 - Florida should be pleasant but humid - max temp: 28°C, min: 23°C
- Please pack clothes accordingly
- Most places in the US are pretty dry and it is easy to get sunburnt, so carry and apply sunscreen (SPF 30) when out in the Sun. It would be a good idea to apply sunscreen while in Florida as well even though it should be a bit more humid.
- Umbrellas aren't a must, the forecast doesn't call for a lot of rain so pack umbrellas only if you have extra room in the luggage.
- Electric outlets run at 110V in the US, most phone/laptop chargers generally work between 110-220V but please check your charger. Please also buy pin converters so Indian chargers work in the US. It would also be a good idea to carry a car charger.
- Doctors prescriptions/travel prescriptions for medicines (except over the counter meds)
- Walking shoes!

Getting around in the USA

- The Public transport system is excellent in New York but it isn't great elsewhere.
- New York: Tap and pay using a card or phone. No need to buy any passes as long as each of you have a card.
- Only pay for the rides you take up to a cap of \$34 in a 7-day period, as long as you use the same card or device for each traveler.
- You will need to tap to get into the station and tap to get out.
- Up to three children under 44 inches tall ride for free when they're with a fare-paying adult on the subway and local, limited, and Select Bus Service buses.
- If you don't have sufficient forex/debit/credit cards for each of you, get one Metro Card or OMNY card per eligible person at any Subway station and load it with \$15. Each metro ride costs \$2.90 but transfers are free. Fares are capped at \$34 for a week, so the max you would be paying would be \$34 for all subway + bus rides in NYC.
- For other places, use taxis

Regarding Foreign Currency

- Have had a great experience with the site [BookMyForex.com](https://bookmyforex.com). They can deliver cards and even Cash to your home. They also come to collect any leftover cash from you.
- Some people have used Niyo forex cards and they liked them.

Mobile Connectivity

- You can buy a sim card from [TSIM](https://tsim.com). We have used their physical and esim personally and they work like a charm. If you are getting two sims, we would recommend getting a T-mobile one and an At&T one.

Recommended Apps

- Uber Eats and DoorDash
 - Just know that food delivery is quite expensive in the US, oftentimes a \$40 meal ends up costing people \$60 due to delivery charges, tips etc.

Important Numbers in the USA

- 911 - one number for any emergencies. You can call this number in case of medical emergencies as well and even to call an ambulance. This number is accessible from anywhere, even where there doesn't appear to be any cell signal.
- Consulate General of India, New York - 3 E 64th St, New York, NY 10065
 - +1 347-721-9243

General Tips

- Tipping people, especially at restaurants, is a norm in the US. Restaurant waiters expect anywhere between 18%-25% of your total bill as tips which you will need to add on the bank

receipt when you sign it. Restaurants generally don't add gratuities for a party of 4 but some upscale ones might, so please check your receipt before adding additional tip

- It is also customary to add tips for taxi rides, although 10%-15% tips should be fine for that
- Check out <https://slickdeals.net/> , this site updates really good deals frequently, you may be able to buy stuff while in India and have them shipped to your friends' or family's places.
